

# PROLONG

## BETTER CBD BETTER HEALTH

Contains Up To  
8 Times More Cannabinoids  
Than Any Other CBD Oil

[www.gtdhealth.co.uk](http://www.gtdhealth.co.uk)

## WHAT IS CBD OIL & WHAT DOES IT DO?

CBD Oil is made from the cannabis plant, it has been reported for a while, that the Cannabinoids contained within these plants, when ingested, have helped ease symptoms and relieve the associated aches and pains to many ailments, and although there is no medicinal or clinical proof, users have reported improvements in health and general well-being after taking CBD Oil. Indeed 2 products have recently been approved by the MHRA for prescription in the UK.

We make no claims that Prolong will diagnose, treat, cure or prevent any disease or illness, it is our customers and CBD users feedback that has spoken volumes, whilst in a recent study, it was reported that 42% of CBD users stopped using traditional prescription medication, previously taken to treat or prevent various conditions, replacing them with daily CBD Oil drops.

After extensive Worldwide tests and research over a 2 year period we believe that Prolong is the best formulated CBD oil currently legally available in the UK.

## DOES IT CONTAIN DRUGS & IS IT LEGAL?

CBD Oil is Approved by The World Health Organisation, who describe it as 'impactful, well-tolerated, non-addictive and safe.'

Prolong is manufactured using the Hemp plant which contains low levels of THC. THC (often known as weed) is a controlled substance which is found in volume within the marijuana plant. Although both plants are cannabis quite simply in the UK Hemp is legal (provided THC is below 0.2%) marijuana is illegal. Prolong Contains a maximum of 1mg / 0.2% THC per bottle (in compliance with all Home Office and current UK legislation). This means it is totally legal to purchase, carry and consume our oils.

Prolong also offer a Professional Choice CBD Oil which is THC FREE (0% THC) for any customer, sports athlete or working professionals who, by preference or to comply with their profession rules, cannot consume any tiny form of a controlled substance.

THC remains in Full Spectrum versions as many report added benefits Its removal from Professional Choice variety is compensated with numerous health and well-being benefits.

CBD  
only

**Prolong Pure, Full Spectrum CBD Oil**  
Made from extracts of the full hemp plant including the stem, plus the rich flower, leaf and seeds.

**Other CBD Oils**  
Made from isolates extracted from only the stem.

# WHY IS PROLONG PURE SO GOOD?

We use the whole plant to produce our Pure, Full Spectrum CBD Oil (other suppliers use only the stem) meaning Prolong has up to 8 times more active ingredients (cannabinoids) than most alternatives currently on sale in the UK.

We only use the best hemp plants cultivated and focussed on purely for CBD production. These plants are from the highest quality EU certified seeds, grown in the richest soil, meaning the highest quality (over 99% pure) CBD Oil is produced in line with European directives.

Combined with our in-house seed to shelf and specialist CO2 SFE extraction process, we believe, along with our customers, that Prolong is the best CBD oil produced.

All of our range is certified organic, 100% natural, kosher, vegan and gluten free. Each batch has its own certificate of quality and analysis carried out by an independent laboratory ensuring the highest standards are reached and maintained.

Available with strengths of 3% to 30%  
with THC levels between 0% to <0.2%

Available in store now or find out more at
